Make your own VE Day party bunting

VE day was a celebration of 'Victory in Europe'. It happened towards the end of the war in May 1945.

Lots of people in Britain planned big street parties outside their homes and brought decorations, food and music along...anything they had to share.

This how you can make your own VE day bunting to decorate your street party:

1. Get a triangle template. Draw round the template onto card and cut out your card triangle.

2. Stick leftover fabric scraps or coloured paper to your triangle. Trim around the edges if you need to.

3. Fold a flap at the top of your triangle where it says 'FOLD'.

4. Tuck the string from your box into the flap and stick it down. Leave a bit of string free at the end.

5. Stick the other triangles from your group or class on to the string, next to your triangle.
